

You Discover the value of your money

when you need to borrow.

You find that the greater your financial resources the larger your borrowing capacity.

Also that the better your acquaintance at a good bank the easier it is to get accommodation.

Banks do not loan to strangers; therefore it is not well to be a stranger at the bank, for all successful people find it necessary at times to use their credit.

Becoming a checking depositor is the way to get on a credit footing at this bank.
